

Important TV Customer Update

Are you frustrated by rising cable prices? You're not the only one. Star Communications' goal is to keep costs as low as possible for you and the programs you enjoy on the air.

We are currently negotiating contracts with local broadcasters. This process is called retransmission negotiations. Retransmission is the right to retransmit a "free" over-the-air station on our network.

We strive to reach fair agreements with broadcasters that allow access to the TV programs you have come to love and expect to watch – with the goal of reducing the threat of blackouts or unreasonable monthly fees.

This is an on-going national issue. When rates increase we will notify you 30 days in advance; however channel line-ups may change prior to January 1, 2018
